447,Maravanathan , Chinna Salem | 6385855002 | jayam4413@gmail.com | <http://starttech.free.nf/>

With over 1 year of experience in backend development, I excel in delivering robust and scalable solutions, optimizing database performance, and ensuring seamless frontend-backend integration. Key achievements include reducing response times by 80% through CodeIgniter 4 and migrating legacy systems to modern technologies. My goal is to continue honing my backend development skills while staying updated with the latest technologies.

EXPERIENCE

JIFFY DIGITAL OFFICE

Backend Developer | MINE| Bangalore

Design and implement scalable backend architectures and optimize database performance to meet technical goals for the Jiffy Digital Office project. Collaborate closely with frontend developers to ensure the functionality of backend systems within the platform, achieving seamless integration and an enhanced user experience.

AECEARTH EDIX

Full Stack Developer | MINE| Bangalore

Design and develop scalable backend APIs and frontend interfaces for the AecEarthEdix Learning Management System. Implement database solutions and optimize query performance to ensure efficient data management and retrieval. Collaborate with cross-functional teams to integrate new features seamlessly.

Royal daddy

Backend Developer| MINE| Bangalore

Develop and implement interactive gameplay features using HTML5, CSS3, and JavaScript on the frontend. Design and optimize backend functionalities to support gameplay mechanics and ensure seamless integration with frontend systems for the Royal Daddy gaming website.

JIFFY Mobile Application

Backend Developer| MINE| Bangalore

Develop and implement robust backend functionalities using CodeIgniter and ensure seamless integration with the frontend using React Native for the Jiffy Mobile Application.

EDUCATION

JUNE 2023

Bachelor of Engineering ,Minor in Computer Science and Engineering| Anna Poorana College

- Relevant coursework: Advanced Algorithms, Data Structures, and Software Engineering
- CGPA: 8.1

TECH SKILLS

Programming Languages : HTML,CSS,JS,PHP

Frame Works : Laravel ,CodeIgniter , React JS

Developer Tools : Visual Studio Code, Postman

Database : MYSQL, Mongo DB
