EDUCATION

2023 - 2025
ANNAPOORANA ENGINEERING
• Master of Engineering

2019 - 2024
ANNAPOORANA ENGINEERING
• Bachelor of Engineering
• GPA: 8.8 / 10

SKILLS

- HTML, CSS, JavaScript, AJAX
- PHP, Express.js, C#
- SQL, PL/SQL, MongoDB
- React JS, CodeIgniter, React Native
- Leadership
- Effective Communication
- Critical Thinking

LANGUAGES

- English
- Tamil
- Kannada(Basics)

PROFILE

With over 1 year of experience, I excel in delivering robust and scalable solutions across full-stack architectures. Expertise in optimizing database performance (including SQL and PL/SQL) and ensuring seamless frontend-backend integration. Key Achievements: Spearheaded digital office solutions, implemented CodeIgniter 4 to streamline processes, reducing response times by 80%, and led legacy system migration to modern full-stack technologies, enhancing reliability and maintainability.

WORK EXPERIENCE

JIFFY DIGITAL OFFICE 2024 - PRESENT
Backend Developer

- Design and implement scalable backend architectures and optimize database performance to meet technical goals for the Jiffy Digital Office project.
- Collaborate closely with frontend developers to integrate and ensure the functionality of backend systems within the Jiffy Digital Office platform, ensuring seamless integration and user experience.

AECEARTHEDEX 2023 - 2024
Full Stack Developer

- Design and develop scalable backend APIs and frontend interfaces for the AecEarthEdix Learning Management System.
- Implement database solutions and optimize query performance to ensure efficient data management and retrieval.
- Collaborate with cross-functional teams to integrate new features

Royal daddy 2024 - 2025
Full Stack Developer

- Develop and implement interactive gameplay features using HTML5, CSS3, and JavaScript on the frontend.
- Design and optimize backend functionalities to support gameplay mechanics and ensure seamless integration with frontend systems for the Royal Daddy gaming website.

JIFFY Mobile Application
Full Stack Developer

- Develop and implement robust backend functionalities using CodeIgniter and ensure seamless integration with the frontend using React Native for the Jiffy Mobile Application.
